Phase 2: Sodia (The Social Engine)

GetPhysical B2C App Master Specification • Version 3.0

2.1 Main Feed & Stories Engine LOCKED

- **Header Tray:** Horizontal row of circular avatars. First circle is user's avatar with "+". Colored ring = unseen stories; grey = seen.
- **Top Nav:** Heart (Activity) and Paper Plane (Inbox). Unread badges apply to both. FAB at bottom right: "+ New Post".
- **Feed Logic (WRE):** Chronological base of followed accounts. Algorithmic "Discovery Card" injected every 4th or 5th slot (Gym Promo, PR Challenge, Coach offer).
- **Story Creation Modal:** Full-screen viewfinder. Tool tray: Text, Location Tag, Tracker Stamp. Post As toggle NEW . Primary: "Post to Story" (expires +24h).
- **Story Viewer:** Segmented top bar. Floating action pills from Location Tags open checkout sheets over the paused story. Bottom input: "Send Message".

2.2 Post Creation & Viewer LOCKED

- **Create Sodia Post:** Select media, caption (280c). "@ Tag Facility" auto-generates POS pill. Attach widgets (Macro Data, Lift Stats). Post As toggle NEW .
- **Automated Check-in Draft NEW :** Post-QR scan at turnstile triggers push: "Checked in. Add a quick photo?" Opens modal pre-tagged.
- **Standard Feed Post:** Header with avatar, handle, Location Tag, overflow menu. Media with verified stamp overlays. Dynamic CTA pill (Registry A: "Drop In", Registry B: "Book Court"). Action row: Like, Comment, Repost, Share.

2.1 Sodia Architecture Matrix

Component	Elements & User Actions	States & Database Operations
Feed Assembly (WRE)	Infinite scroll. Chronological base feed.	WRE SQL View injects a "Discovery Card" every 4th/5th slot based on tracker exhaust multiplying relevancy scores.
Dynamic CTA Pill	"Drop In" (Reg A) or "Book Court" (Reg B).	Pulls live pricing/status from `facilities` table. Tapping invokes Universal Checkout Bottom Sheet without navigating away.
Stories Engine	Location Tags, Tracker Stamps (draggable overlays).	Coordinates/scale of stickers saved as JSON overlay array. Cron job sets `is_active = false` after 24 hours.
Repost & Quote	"Quick Repost" or "Quote". Embeds original post.	**Preservation Rule:** All CTAs and stamps remain fully clickable on the reposted version. Repost ID tracked for future affiliate logic.

2.7 Verified PR Challenges LOCKED

- **Create Challenge Modal:** Title ("Heaviest Deadlift in Makati"), Type (Lift/Move/Court), Metric (1RM/fastest/volume), Start/End Date, Location Lock toggle (forces geofence/check-in), Eligibility.
- **Challenge Post (Viewer):** Fiery "Accept Challenge" button replaces standard facility CTA. Shows participant count, time remaining, and top-3 mini-leaderboard.
- **System on Accept:** Goal injected into user's Track tab as an active Bounty.
- **Submit Entry:** Dynamic upload (Video for Lift, auto-sync for Move). Data selector shows ONLY verified sessions matching criteria. Caption (150c). System overlays uneditable stamp on media.
- **Live Leaderboard:** Pinned in comment thread. Rank, avatar, result, verified badge, time submitted. Tapping row opens entry. Own row sticky at bottom.

> **Integrity Rule** NEW **:** Duplicate entries by the same user replace their previous best attempt to keep leaderboards clean. Location Lock forces GPS or active VIP check-in match.

2.8 Activity, Inbox & Direct Messages LOCKED

- **Activity (Heart):** Segmented tabs (All Activity, Follow Requests). Rows for Likes, Comments, Follows, Challenge Alerts ("You were passed", "Challenge ends in 2h"). Grouped by Today/This Week.
- **Inbox Main List:** Search bar, Primary & Requests tabs. Row shows avatar, preview, timestamp, unread badge. Swipe to mute/delete. FAB "New Message".
- **Direct Message Thread:** Chat viewport. Interactive bubbles: Shared tracker stamps ("Congratulate", "Accept Challenge"), Shared post previews.
- **B2B Staff Handshake Card:** Official invite from Gym Dash. Branded card: "[Facility] invited you to join as [Role]." Action: "Review & Accept".

2.2 Challenges & Messages Matrix

Component	Elements & User Actions	States & Database Operations
Challenge Creation	Location Lock toggle, Type, Metric.	Writes to `challenges`. Location Lock forces the system to validate geofence or VIP check-in during submission.
Accept Flow	Tapping "Accept Challenge".	Injects a Bounty Card into the user's Track Tab (`user_bounties` table). Updates active challenges counter.
Group Chats	Multi-select friends. Edit Group Name.	Writes to `chat_rooms` (type: group) and `chat_participants`. Manage members via thread overflow menu.
B2B Handshake	Review & Accept invite button.	Updates `public.user_roles` array and maps `user_id` to the facility's staff registry table.

2.10 User & Facility Profiles LOCKED

- **User Profile Main:** Cover photo, avatar, bio. Active Roster (horizontal badges under bio for active gym subscriptions). Metrics: Followers, Following, Active Challenges.
- **User Tabs:** (1) Feed, (2) PRs & Entries (Trophy Case - verified stamps auto-pin here), (3) Locker (expired passes), (4) Albums, (5) Journey (vertical timeline of private progress pics/journals NEW).
- **Photo Albums:** Grid of folder-like cards. Progress View: selecting two photos triggers floating "Compare" FAB for Before/After overlay.
- **Facility Profile (Reg A - Gyms):** Cover, logo, Live Status ("12/50 active"). Primary: "Buy Day Pass / View Memberships". Tabs: Feed, Community, Coaches, Info, Challenges.
- **Facility Profile (Reg B - Courts)** NEW **:** Primary: "Book Court" or "Join Queue". Shows live court availability and events.
- **Coach Pro Profile:** Certifications, Bio, Specialty tags. Primary: "Train with Me" (DM or waitlist). Tabs: Feed, Programs (paid tier templates), Transformations.

Algorithm Layer: Weighted Ranking Engine (WRE) LOCKED

- **Logic:** Deterministic SQL view. No black-box ML.
- **Signals:** (1) Identity Goals, (2) Social Graph connections, (3) Tracker Exhaust (what is logged), (4) Wallet History (where user spends).
- **User Controls** NEW **:** "Not interested" on Discovery Cards and a "Why am I seeing this?" explainer.

2.3 Profiles Database Matrix

Component	Elements & User Actions	States & Database Operations
User Badges & Streaks	Header metrics. Tap Badges for sheet.	Streaks calculated from consecutive days with `workout_logs`. PB button queries all-time bests.
Journey Tab	Progress Pics, Text Journals.	Strictly private. Pulls from private Albums. Hard-excluded from algorithmic recommendation surfaces.
Facility Live Status	Capacity text (e.g. "12/50").	Computed dynamically from active VIP check-ins against facility declared max capacity.
Coach Programs	View Programs tab on Coach Profile.	Free to preview Week 1 / Day 1 structure. Pay to unlock full template in Track tab.
